Content Presentation

One Line Synopsis:

Has Anyone Seen Eyal Nurich? is a universal coming of age myth set in a timeless forest as night falls and a group of adolescent scouts play a cruel game of sexual attrition with their young female counselor, Rona.

Synopsis:

What begins as a routine outing turns sinister when the group of ten young boys and their female counselor 'discover' that Eyal Nurich is missing. As panic besets the innocent Rona, the group slowly takes the upper hand in the unfolding psychological competition. Their adolescent mind game reaches a climax and in order to discover the truth about Eyal Nurich's whereabouts, they force Rona to sacrifice her innocence. But as in many conflicts, victory is ambiguous and far from satisfying.

Full Synopsis:

Has Anyone Seen Eyal Nurich? portrays an oppressive group of boy scouts. In the course of one day, Rona, a young guide, quickly grows up and matures. Her face is bleak; the kids are tired and complaining about it. It's obvious she does not want to be there. Perhaps she would prefer to spend her time with Natti, her supervisor but her interaction with him is confused and clumsy. The kids pick on Rona's personal life, they don't let go. One of the kids, Eyal Nurich, disappears. Did he go missing without her noticing? Did she fail in her single role? Or is this another attempt of the kids to manipulate her? It is clear to Rona that the children are hiding Eyal Nurich. They make she understands the only way to make them reveal him, is to show them her breasts.
